

ELSPRO Industrial Tripod Type GIRAFFE

swivelling wall tripod with long neck

Boom systems are helpful in lighting hard-to-access areas professionally. They are used above all in places where there would be no space or stable support for tripod legs.

The boom systems are available in two models:

- with stable wall mounting (type W)
- with flexible clamp mounting (type C) for securely attachment to tubes and bars, for example:
 - minimum diameter: 12 mm
 - maximum diameter: 45 mm

FEATURES AND QUALITIES:

- stable models in black anodized aluminum
- swivel and tilt angle: 180°
- lockable swivel and tilt angle
- delivery including DIN pins \varnothing 30 mm

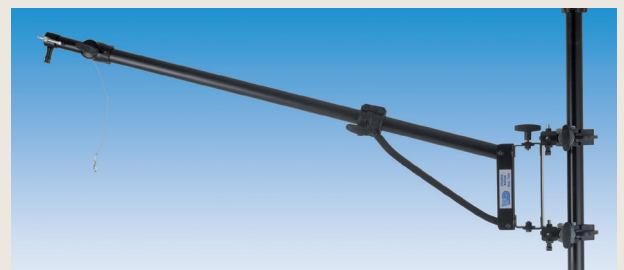

MODELS:

Type	Frame*	Mounting	Minimum length and load capacity	Maximum length and load capacity	Order No.
GIRAFFE W01	AL	wall mounting	1.20 m / 8.0 kg	2.10 m / 4.0 kg	TV7390W
